

Kennedy Sovine

Junior QA Analyst

Waterbeach, United Kingdom | kennedy.sovine@gmail.com | +447572434896 | [LinkedIn](#)

Junior QA Analyst (BSc Computer Science, 2:1) with practical experience in functional and regression testing, defect triage, and console certification. Proficient in Unity, C#, C++, Python and test-automation principles; I author clear, reproducible test cases, drive fixes through collaborative triage, and apply systems-engineering and security know-how to deliver robust, platform-compliant, user-centred builds for game and software teams.

Profile

Junior QA Analyst with a BSc in Computer Science and hands-on experience in functional and regression testing, defect triage, and console certification. Strong programming background in C#, C++, Python, and Unity, combined with practical game-design experience (dissertation on MOBA character balance). Skilled at authoring clear, reproducible test cases, prioritizing and verifying fixes with developers, and ensuring builds meet platform compliance. Seeking to bring a technical, user-centered approach to improving product quality in game or software development teams.

Achievements

- Contributed to the successful launch of Dragonwolds v0.12 ("Umbral Sands") by executing functional and regression test plans and authoring clear, reproducible test cases.
- Triaged and tracked defects from community reports and internal testing, collaborating with developers to prioritize and verify fixes and ensure timely resolution.

Education

University of Brighton, Brighton, England

BSc Computer Science, Sept 2022 to Jun 2025

- Graduated with Honors 2:1 (Upper Second Class).
- Wrote my dissertation on the balancing of player characters in MOBA games, specifically looking at characters from League of Legends.

Pope John Paul II High School, Hendersonville, Tennessee

High School Diploma, Aug 2018 to May 2023

- 3.98/4 weighted GPA
- Took many AP Classes, including, but not limited to: AP Comp Sci A and AP Calculus BC
- Scored a 5 on AP Computer Science A exam in 2021.

Professional experience

Junior QA Analyst, Jagex, Cambridge

Jun 2026

- Executed functional and regression testing for features in development, authoring clear, reproducible test cases and bug reports.
- Triaged and tracked defects reported by community channels and internal tests; collaborated with developers to reproduce, prioritize and verify fixes.
- Supported console certification activities, ensuring builds met platform requirements and compliance standards.

Retail Assistant, Søstrene Grene, Cambridge

Sept 2025 to Apr 2026

- Designed and developed visual displays in accordance with the company's guidelines.
- Replenished the stock floor in a timely manner, ensuring customers had the best access to purchase products.
- Assisted in opening the store (Opened October 17th, 2025), which included managing initial stock, working overtime due to opening, and then the following Christmas season.
- Managed stock deliveries, which included breaking down pallets, ensuring all items on the manifest were delivered in the right amount and in a suitable condition, and organizing new limited items separately from persistent stock.
